2

6 long-term commitments

Act for a climate positive world	by continuously investing in and developing innovative solutions that deliver immediate and lasting decarbonization in line with our carbon pledge
Be efficient with resources	by behaving responsibly and making the most of digital technology to preserve our planet
Live up to our principles of trust	by upholding ourselves and all around us to high social, governance and ethical standards
Create equal opportunities	by ensuring all employees are uniquely valued and work in an inclusive environment to develop and contribute their best
Harness the power of all generations	by fostering learning, upskilling and development for each generation, paving the way for the next
Empower local communities	by promoting local initiatives and enabling individuals and partners to make sustainability a reality for all

2021–2025 SCHNEIDER SUSTAINABILITY IMPACT

6 long-term commitments	11+1 targets for 2021-2025
CLIMATE 	1 Grow our green revenues to 80% 2 Deliver 800 million tons of saved and avoided CO₂ emissions to our customers 3 Reduce CO₂ emissions from top 1,000 suppliers' operations by 50%
RESOURCES 	4 Increase green material content in our products to 50% 5 100% of our primary and secondary packaging is free from single-use plastic and uses recycled cardboard
TRUST 	6 100% of our strategic suppliers provide decent work to their employees 7 Measure the level of confidence of our employees to report behaviors against our Principles of Trust
EQUAL 	8 Increase gender diversity , from hiring to front-line managers and leadership teams (50/40/30) 9 Provide access to green electricity to 50 million people
GENERATIONS 	10 Create opportunities for the next generation – 2X number of opportunities for interns, apprentices, and fresh graduate hires 11 Train 1 million underprivileged people in energy management
LOCAL 	+1 100% of Country and Zone Presidents define 3 local commitments that impact their communities in line with our sustainability transformations

4

The foundation of circularity at Schneider

There is no net-zero emissions world or nature-positive world without a circular economy

Sustainability Commitments

Sustainable: 2025 ambition*

Our people are passionate to build carbon-neutral and circular supply chains, preserving local biodiversity

Life: Clean and safe facilities

- **Zero** fatal and serious accident
- **Culture and passion:** People empowerment and visible environmental excellence in sites
- Engage 100% sites towards **local biodiversity preservation projects**

Climate: Digital and net-zero CO₂

- **Reduce carbon emission by 80% within 2025** to support 2030/2050 ambition with:
 - Energy efficiency **15%**, renewables **90%**
 - **70** GSC sites net-zero CO₂
 - **1000** suppliers with ambition of -50% CO₂ emission

Resources: efficient & circular

- **Circular supply chain innovations**
- Obsolete stocks are given a 2nd chance
- **Sustainable packaging:** 100% eco-friendly packaging (primary, secondary, filling materials, single-use plastic ban...)

Life Is On | **Schneider Electric**

Schneider Electric Net-Zero Commitment

Schneider Electric's purpose is to bridge progress and sustainability for all. Our mission is to be the digital partner in efficiency and sustainability of our customers. We strive to be an **Impact company**, enabler and practitioner of sustainability.

As such, we are committed to become **Net-Zero across our entire value chain by 2050**.

By tackling **emission reduction across scopes 1, 2 and 3** and investing in **carbon removal for residual emissions** and beyond the value chain, and collaborating end-to-end, we are aiming to deliver on **targets independently validated by the Science Based Targets initiative**.

2030

SCIENCE
BASED
TARGETS
DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

2050

SCIENCE
BASED
TARGETS
DRIVING AMBITIOUS CORPORATE CLIMATE ACTION

"Net-Zero ready" in our operations¹
 (-90% reduction of CO₂ emissions for Scope 1 and 2 as compared to 2017, and carbon removals for residual emissions from Scope 1 and 2)
25% absolute reduction across our entire value chain²
 (as compared to 2021 baseline)

Net-Zero CO₂ emissions across our entire value chain²
 (-90% reduction of CO₂ emissions across the value chain as compared to 2021, and carbon removals for residual emissions across the value chain)

Notes: ¹ Greenhouse gas emissions from Scopes 1 and 2, as per the framework from the GHG Protocol; ² Greenhouse gas emissions from all 3 scopes.

Decarbonization

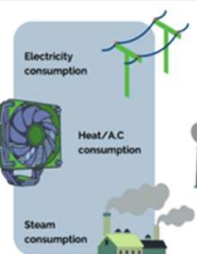

All Values are in mtCO₂e (Metric tons CO₂ Equivalent)

Year 2024

Scope 1

Direct emissions from sources that are owned or controlled by an organization.

Scope 2

Indirect emissions from the consumption of purchased electricity, heat, or steam.

Scope 3

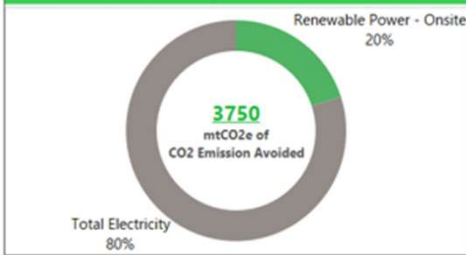

Indirect emissions resulting from the activities of an organization, but not included in Scope 1 or 2.

Scope 1	Scope 2	Scope 3
0.04%	5.04%	94.92%

Three key levers for Decarbonization

- Electrification**- Converting fossil fuel-based technology to electric-based technology
- Reduce**- Implementing energy-saving projects and digital energy monitoring
- Replace** - Green energy instead of non-renewable energy

Key figures in the Zero Carbon Project

> 1,000
companies joined The Zero Carbon Project

> 1,300
supplier participants trained in 8 technical trainings on decarbonization

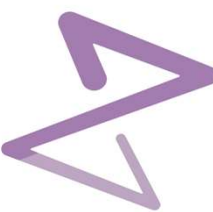

-50%
reduction of supplier operations emissions (scopes 1 and 2) by 2025

Zeigo™

by Schneider Electric

How we partner for sustainability success

Step 1

Reduce Carbon Emissions. For businesses with less than 10 sites, Zeigo Activate gives your team the power to reduce carbon emissions without having to be a sustainability expert.

Step 2

Explore Decarbonization Opportunities. Connect with peers and solution providers to explore green technology opportunities and buy renewable energy that get your closer to your goals with Zeigo Network and Zeigo Power.

Step 3

Decarbonize Your Supply Chain. Zeigo Hub provides the digital tools to help your value chain make an impact on your scope 3 emissions and accelerate your supply chain decarbonization program.

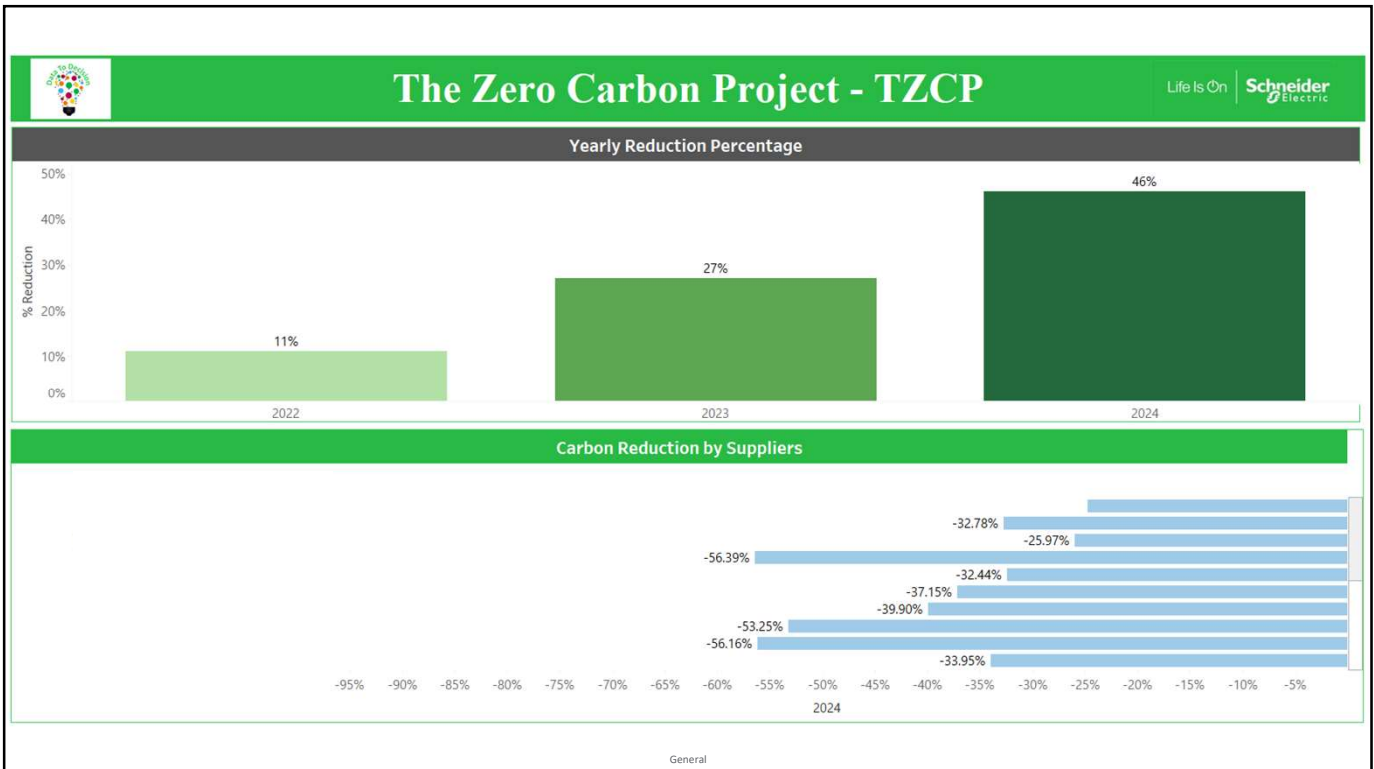

The Zero Carbon Project fosters the exchange of best practices through a variety of live engagements and training sessions organized on a regular basis.

Green packing

Primary Packing cardboard boxes

- White to green –brown natural colours

Secondary Packing cardboard boxes

- 100% Virgin to min 70% recycled RM

Single use plastic

- Plastic tape to paper tape
- Plastic Air void bags to Paper bags
- Plastic air void bags to recycled carton waste

Smoke Detection System Using AI Camera

Description

Smart cameras installed to detect smoke in case of fire

An alert is sent through ANDON in case of any abnormalities

4 Cameras to be installed to cover the entire rooftop area

Live feed of the cameras integrated with the BMS
